Index to AGRICULTURAL ENGINEERING

Volume 31 — January to December, 1950

Issue	Pages
JANUARY	1- 48
FEBRUARY	49- 96
MARCH	97-152
APRIL	153-200
MAY	201-256
JUNE	257-312
JULY	313-368
AUGUST	369-424
SEPTEMBER	425-480
OCTOBER	481-536
NOVEMBER	537-584
DECEMBER	585-640

A

Accidents, Farm (See Safety)

Aerodynamics of wind errosion 279

AGRICULTURAL ENGINEERING (Agricultural Engineers)
- Administrative status of agricultural engineering in the USDA 283
- Agricultural engineering makes new strides 383
- Industrial applications of agricultural engineering 441
- Engineers' position on collective bargaining 495

Albright, C. W.
- The application of fluidization to conveying grain 349

Alcohol-water injection for high-compression tractor and automobile engines 71

Alfalfa valves, Studies of pressure-head losses in concrete risers and 292

Allis, John A.
- Results of rainfall and runoff studies 518

Andrews, R. G.
- Runoff estimates based on infiltration capacity, antecedent moisture conditions, and precipitation 26

Apples in the Pacific Northwest, Cold storage of 458

Automation (Editorial) 495

Awards (See Medalists)

B

Barger, E. L.
- A pneumatic gun for elevating baled hay 111

Barlow, G. E., Jr.
- Supplemental heat in mow drying of hay (part III) 223

Baugh, E. R.
- Some results of mulch tillage for corn 398

Bell, F. J.
- A drill for experimental plots 134

Bisal, Frederick
- Calibration of splash cup for soil erosion studies 621

Bond, T. E.
- Thermal design of livestock shades 601

Boyd, Landis L.
- The effect of moisture content of wood on withdrawal resistance of roofing nails 178

Bressler, G. O.
- Automatic poultry feeders 21

Brown, D. P.
- Supplemental heat in mow drying of hay (Part III) 223
- The application of fluidization to conveying grain 349

Browning. G. M.
- Principles of soil physics in relation to tillage 341

Bruhn, H. D.
- How to maintain a thermocouple at wet-bulb temperature 348

Buildings, Farm (See Structures)

Burgener, M. L.
- Protective coatings for weathered galvanized sheets 67

C

Campbell, John C.
- A practical farmhouse 17

Carreker, John R.
- Mechanization aids conservation practices 445

Carter, Deane G.
- Protective coatings for weathered galvanized sheets 67

Chain applications for farm machines, Roller 19

Chemicals for drainage ditch maintenance 617

Chepil, W. S.
- Aerodynamics of wind erosion 279

Clyde, A. W.
- Distribution of air on a hay drier 131

Cold storage of apples in the Pacific Northwest 458

Collective bargaining, Engineers' position on (Editorial) 495

Collopy, Joseph P.
- Land development and irrigation practices 29

Concrete irrigation pipe systems, Results of tests of the failure of plain 611

Confer, L. J.
- Standards for V-belt drives on farm equipment 237

CONSERVATION, Soil and Water (See also Drainage, Erosion Control, Irrigation, Soils)
- New knowledge and better living (editorial) 63
- Flatland soil conservation 78
- Fundamentals in conservation research 123
- Sealing farm ponds 125
- Mechanization aids in conservation practices 445
- Technical aspects of the USDA watershed program for the Missouri basin 466
- Machinery requirements for stubble-mulch tillage 506
- An experimental mulch planter 509
- Hydraulic controls and soil conservation implements 514
- Results of rainfall and runoff studies 519
- Caliberation of splash cup for soil erosion studies 621

Cook, R. L.
- A comparison of tillage implements 211

Corn borer control, Electric lamps and traps in 503

Corn picker with a stalk shredder 512

Corn, Methods of conditioning shelled 497

Cotton ginning research results 75

Cotton mechanization in California 219

Cox, Earle
- Poultry house ventilation—theory and practice 114

Cruz, Santiago R.
- Engineering rice production in the Philippines 16

Cumings, Glenn A.
- Development of a dispenser for applying radioactive phosphatic fertilizer 275

Curriculum accreditation, ECPD 232

Cykler, John F.
- Harvesting Napier grass in Hawaii 76

D

Dairy barn ventilation, Application of heat exchangers to 167
- (Correction for above paper) 236

Dale, Alvin C.
The effect of moisture content of wood on withdrawal resistance of roofing nails 178

Davis, Joe F.
Economic studies of farm electrification 565

Davis, Roy B.
Supplemental heat in mow drying of hay (part III) 223

Dealer training (Editorial) 568

Deay, Howard O.
Electric lamps and traps in corn borer control 503

Design, Place of research in farm machinery 501

Diesel-powered tractor, Design features of a new 171

Ditch maintenance, Chemicals for drainage 617

Downing, C. G. E.
Application of heat exchangers to dairy barn ventilation 167
(Correction for above paper) 236

DRAINAGE, Land
A quantitative method of determining ground-water characteristics for drainage design 285
The depth and spacing of tile drains 448
Drainage of sugar-cane land 451
Techniques for drainage investigations in Coachella Valley, Calif. 559
Chemicals for drainage ditch maintenance 617

Dreibelbis, F. R.
Machinery problems in mulch farming 393

Drier, A. F.
A drill for experimental plots 134

Drill for experimental plots, A 134

DRYING—Driers (See also Ventilation)
Distribution of air on a hay drier 131
Supplemental heat in mow drying of hay, part III 223
Operation and performance of alfalfa dehydrators in central United States 234
Methods of conditioning shelled corn 497

Duncan, Richard A.
Development of a sugar cane harvester 65

E

Eakin, W. E.
Window insulation and solar orientation of farm structures 607

Economic studies of farm electrification 565

ECPD curriculum accreditation 232

EDITORIALS
Engineers service to farmers 11
An alternative to the strike 11
New knowledge and better living 63
Engineering philosophy 109
More than a pseudo-scientific racket 109
Employment outlook for engineers 165
Examinations for licensing 165
Business interest in conservation 165
Our stake in ASAE 209
Registration is important to you 209
Farm machine use economics 209
Merchandising aids engineering 273
Instrumentation 273
Investment in farm production facilities 273
Farm safety engineering 325
Production economies 325
Seven producers 381
Live and let live 381
Rural industries 439
Progress in farm processing 439
Engineers position on collective bargaining 495
Automation 495
Engineers and international understanding 495
Good products 495
"Freedom isn't free" 549
Dealer training 568
Our most serious professional problem 599
Accreditation program moratorium 599
Electrification grows 599

Edminster, T. W.
Application of the double-cut plow principle to mulch tillage 395

Eldredge, Dale B.
Development of a dispenser for applying radioactive phosphatic fertilizer 275

ELECTRIFICATION, Rural
Results of ice-free water tank studies 385
Farm electrification research by electric operating companies 403
Electric lamps and traps in corn borer control 503
Economic studies of farm electrification 565
Electrification grows (Editorial) 599

Elliot, B. G.
A new concept of the side-delivery rake 114

EROSION CONTROL, Soil (See also Soils)
Runoff estimates based on infiltration capacity, antecedent moisture conditions and precipitation 26
Land development and irrigation practices 29
Soil erosion controllers for gated irrigation pipe 136
Aerodynamics of wind erosion 279
Machinery for utilizing crop residues for mulches 391
Machinery problems in mulch farming 393
Application of the double-cut plow principle to mulch tillage 395
Some results of mulch tillage for corn 398
Mulch farming and related machinery problems 401

Evans, L. S.
Chemicals for drainage ditch maintenance 617

Evaporation from irrigation sprays, An investigation of 345

Ewing, John A.
Irrigated pastures for dairy cows 24

F

Fairbank, J. P.
Cotton mechanization in California 219

Fairbanks, Gustave E.
Fertilizer placement machine for experimental plot work 556

Farmhouse, A practical 17

Farm machine use economics (Editorial) 209

Feeders, Automatic poultry 21

Ferris, John G.
A quantitative method for determining ground-water characteristics for drainage design 285

Fertilizer, Development of dispenser for applying radioactive phosphatic 275

Fertilizer placement machine for experimental plot work 556

Flatland soil conservation 78

Flikke, Arnold M.
Results of ice-free water tank studies 385

Fluidization to conveying grain, The application of 349

Foster, Edgar E.
Runoff estimates based on infiltration capacity, antecedent moisture conditions and precipitation (Discussion) 26

Foster, George H.
Methods of conditioning shelled corn 497

Frame walls, Strength of nailed joints in 551

Friberg, W. R.
Stall equipment for experimental steer feeding 622

Fuel for farm power units, LP gas as a 215

Fukuda, Hitoshi
The application of the profit-water curve to irrigation projects 350

G

Galvanized sheets, Protective coatings for weathered ... 67

Giese, Henry
Application of heat exchangers to dairy barn ventilation ... 167
(Correction for above paper) ... 236
The effect of moisture content of wood on withdrawal resistance of roofing nails ... 178
Ventilation of animal shelters by the use of heat exchangers ... 329
The structural application of glue in framing farm buildings (part III) ... 455

Gilbert, M. M.
